A12.1 ESSX[®] Service (Obsoleted, See Section A112.)

A12.2 Reserved For Future Use

A12.3 Reserved For Future Use

A12.4 Assigned Centrex Type Services Telephone Numbers Without Facilities

A12.4.1 General

- A. Assigned telephone numbers without facilities will be provided to meet growth requirements of a Centrex Type Services subscriber and any associated ISDN service. These telephone numbers will be assigned to the subscriber's common block without being associated with a working station line and will be converted to active station lines as requested by the subscriber.

A12.4.2 Regulations

- A. The assignment of telephone numbers and the sequence of numbers assigned to a Centrex Type Services subscriber's system will be made at the discretion of the Company.
- B. The service is furnished subject to the availability of telephone numbers.
- C. The Company does not guarantee to provide consecutive telephone numbers.
- D. Calls to these assigned telephone numbers will be routed to intercept common recorded announcement facilities as indicated in the tariff section for the subscriber's Centrex Type Services system.
- E. Telephone numbers furnished herein retain their status until associated with an active station line at which time the service assumes rates and charges applicable to the appropriate Centrex Type Services station line.
- F. These assigned telephone numbers will not be available for manipulation utilizing ECAS, DECAS, Customer Control, or BellSouth[®] Centrex Control capabilities.
- G. Directory listings will not be provided with these assigned telephone numbers.
- H. These telephone numbers will be billed at the following rates until utilized on an active Centrex Type Services station line.
- I. A Secondary Service Charge applies per occasion for the assignment of any quantity of telephone numbers at the same time. *A Secondary Service Charge does not apply when a working telephone number is converted to an Assigned Telephone Number.* (C)
- J. The Company will make every effort to insure the correct assignment and control of Assigned Centrex Types Services Telephone Numbers Without Facilities. The Company's liability for any damages or harm that may occur as the result of incorrect assignment or control of these numbers shall not exceed an amount equal to the proportionate part of the monthly recurring charge for the service for the period during which the service was affected.
- K. The installation charge for subscription to Assigned Centrex Type Services Telephone Numbers Without Facilities will be waived through March 14, 2001.

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.7 Direct-Inward-Dialing (DID) Service

A12.7.1 Rules And Regulations

- A. DID service permits calls incoming to a PBX or other customer premises equipment from the network to reach a specific station line number without the assistance of an attendant. DID service is provided subject to the availability of facilities and may be furnished from the central office which regularly services the area in which the customer is located or from a foreign central office equipped to provide DID service subject to the appropriate Company intra and interexchange rates. (M)
- B. Rates are in addition to the rates shown elsewhere in this and other Company tariffs for the services and equipment with which this offering is associated. (M)
- C. The service includes central office switching equipment necessary for in-dialing from the network directly to station lines associated with customer premises switching equipment. (M)
- D. The service must be provided on all trunks in a group arranged. Each trunk group shall be considered a separate service. Grouping Service will not be provided between separate trunk groups. (M)
- E. Facilities and operational characteristics of interface signals between the Company-provided connecting arrangements and the customer-provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service. (M)
- F. One primary directory listing will be furnished without charge for each separate trunk group. Additional listings can be obtained as specified in Section A6. of this Tariff. (M)
- G. The customer shall be responsible for providing interception of calls to vacant and nonworking assigned DID numbers by means of attendant interceptor recorded announcement service. (M)
- H. DID numbers are provided in blocks consisting of a minimum of 20 consecutive numbers which may be assigned to station lines or reserved for future use at rates specified herein. The Company does not guarantee to provide a number block or to provide DID numbers arranged in a consecutive manner. If the DID numbers provided cannot be arranged in a consecutive manner, they will still be provided at rates and charges for consecutive numbers. When a number is removed from an existing consecutive DID number group, the installation charge and monthly rates for Non-Consecutive DID apply to the remaining numbers. If a customer requesting Non-Consecutive DID numbers does not have DID service at the time the Non-Consecutive DID numbers are requested, a minimum of 20 Non-Consecutive DID numbers must be ordered.. The Company will be responsible for interception and administration of reserved numbers. (M)
- I. Automatic Intercept Service (AIS) for a non-listed disconnected DID telephone number will be provided at the rate shown in A12.7.2A., where facilities permit. AIS will provide a referral from the non-listed disconnected DID telephone number to the corresponding new telephone number for a maximum period of twelve months or until the delivery of the new Real White/Yellow Pages directory, whichever comes first. (M)

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.7 Direct-Inward-Dialing (DID) Service (Cont'd)

A12.7.2 Rates And Charges

A. Direct-Inward Dialing (DID) charges

1.	Group of 20 Working or Reserved DID Numbers ^{1,2}				(T)
		Installation Charge	Monthly Rate	USOC	
	(a) Working Numbers, each	\$480.00	\$5.00	ND4	(I)
	(b) Reserved Numbers, each	480.00	5.00	NDV	(I)
2.	DID One Way Inward Trunk Termination in Central Office ²				(T)
	(a) Each	\$50.00	\$35.00	NDT	(I)
3.	Multi-frequency (MF) Pulsing Option ^{2,3}				(T)
	(a) Each Trunk	-	10.00	S5MBD	(I)
4.	Dual Tone Multi-frequency (DTMF) Option ^{2,3}				(T)
	(a) Each Trunk	-	10.00	S5DBD	(I)
5.	Automatic Intercept Service ⁴				(T)
	(a) Per number referred	16.00	-	ND1	
6.	DID Trunk Termination, each Combination Trunk with Call Transfer ^{2,5,6}				(T)
	(a) Each	250.00	55.00	NCT	(I)
7.	Non-Consecutive DID Numbers ^{1,2}				(T)
	(a) Each	1.50	.25	ND5	(I)
8.	Reserved Non-Consecutive DID Numbers ¹				
	(a) Each	1.50	.17	ND6	

Note 1: The installation charge in A12.7.2.A.1.(a) applies for the establishment of the first group of Non-Consecutive DID numbers where the customer does not currently have DID service. It also applies for the first group of Reserved Numbers or the first Reserved Non-Consecutive DID number where the customer does not currently have DID service or Non-Consecutive DID numbers.

Note 2: Rates are effective with normal billing cycles beginning on or after June 14, 2003. (N)

Note 3: Provides faster signaling on DID PBX trunks or NARs. The choice of pulsing alternative depends on the customer's premises equipment. (T)

Note 4: Provides automated referral of calls from a non-listed disconnected DID telephone number to a corresponding new telephone number for twelve months or until the delivery of the new directory, whichever comes first. AIS is available where facilities permit. (T)

Note 5: In addition to the rates and charges for the DID Trunk Termination, rates and charges for DID PBX Trunks or NARs as specified in Section A3. of this Tariff apply as appropriate. (T)

Note 6: Combination DID Trunk Terminations with the Call Transfer feature are only provisioned where facilities permit. (T)

(M)

A12.16 Prestige® Communications Service (PCS)

(M)

A12.16.1 General

(M)

- A. PCS provides central office calling features furnished from Electronic Central Office equipment located in Company buildings. Access arrangements available to PCS are individual Business and Residence exchange lines, trunks and exchange lines extended to foreign central offices/foreign exchanges. It is offered on a single or multiple access arrangement basis as a customer option and may be provided subject to the availability of facilities. Business and residence PCS features will be allowed at the subscriber's residence location only in accordance with A2.3.6 of this Tariff. All access arrangements in PCS will have the same subscriber responsibility. Exchange access arrangements in PCS must have the same type of service, e.g., must be either flat, measured or message service. (M)
- B. PCS service requires one basic feature group per access arrangement and the basic feature group selected may vary among multiple access arrangements. Optional feature groups are only available in conjunction with a basic feature group and will be offered on a per access arrangement equipped basis. (M)
- C. PCS is not available to access arrangements equipped with ESSX® service, Outward WATS Service, and 800 Service. PCS basic and optional feature groups are not compatible with existing Custom Calling Services described in Section A13. of this Tariff. (M)
- D. The billing record of any local or toll calls on access arrangements using PCS service will not be affected by the application of the features of this service. (M)
- E. Some PCS features may not be available to access arrangements utilizing dial pulse signaling. The rates and charges for Touch-Tone service are in addition to PCS rates and charges. (M)

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS¹

(N)

A12.16 Prestige® Communications Service (PCS) (Cont'd)

A12.16.1 General (Cont'd)

- F. The quality of transmission for calls utilizing PCS Call Forwarding features or the User Transfer/Conferencing feature may vary depending on the distance and routing involved. The Company makes no representation as to the quality of the transmission of such calls.
- G. The minimum service period for PCS is one month commencing with the date of installation of the service.
- H. Feature availability and/or operation is dependent upon the type of serving central office and/or the current generic program.
- I. PCS can be suspended as specified in A2.3.16 of this Tariff. During the period of suspension, no recurring charge applies to the PCS features.

A12.16.2 Service Description

A. Basic Features

1. User Transfer/Conferencing^{2,3}

A user of this feature may hold an in-progress call and complete a second call while maintaining privacy from the first call, or may add on the previously held call for a three-way conference. The feature also allows an incoming call to be transferred to another access arrangement.

2. Call Pickup²

This feature allows a PCS user the ability to answer a call which has been directed to another PCS access arrangement within the same call pickup group by dialing a code. Multiple call pickup groups are allowed with PCS service.

3. Call Hold^{2,4}

A user of this feature can place any established call on hold by depressing the switchhook and dialing a code. This frees the access arrangement to originate another call.

B. Optional Features

1. Speed Calling^{6,2}

This feature provides a PCS user the ability to place a call by dialing a code plus one digit, to any one of six telephone numbers preprogrammed by the customer on an individual access arrangement.

2. Call Waiting²

This feature signals a PCS user that is on an existing call that another call is waiting. Cancel Call Waiting provides the ability to deactivate the Call Waiting feature on a per call basis and is included with Call Waiting where available. Call Waiting may be provided on individual access arrangements that are not in rotary (arranged for hunting) or on the last access arrangement in a rotary hunt group.

3. Call Forwarding Variable²

This feature provides a PCS user the ability to have all incoming calls forwarded to a different telephone number by dialing a code and the telephone number where calls are to be forwarded. Ring Reminder provides a short burst of ringing on an access arrangement in the call forwarded state when a call is placed to the telephone number which has been forwarded.

Note 1: The changes on this page are a result of a restructure of this Section.

(N)

Note 2: This feature is inherent in most customer provided PBX's. Under certain conditions, the PBX feature may take precedence over, alter, or preclude the use of this PCS feature.

Note 3: Due to technological limitations, User Transfer includes Conferencing.

Note 4: Due to technological limitations, User Transfer/Conferencing is required with Call Hold.

PUBLIC SERVICE COMMISSION
OF KENTUCKY

SECTION 9(1)

BY: Jordan C. Neal
FOR THE PUBLIC SERVICE COMMISSION

¹Registered Service Mark of BellSouth Corporation

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.16.2 Service Description (Cont'd)

B. Optional Features (Cont'd)

4. Call Forwarding Don't Answer'

This feature provides a PCS user the ability to automatically forward all calls that encounter a don't answer condition, after a preselected interval, to an alternate telephone number. This feature is in operation on a continuous basis and cannot be activated or deactivated by the customer. Due to technical limitations, the actual interval before a don't answer call is forwarded may vary slightly from the preset value. The interval and destination telephone number are specified by the customer at the time the feature is ordered. Changes in either the destination telephone number or the forwarding interval must be requested from the Company by service order.

5. Call Forwarding Busy Line'

When the called access arrangement is busy, this feature automatically routes all calls to a preselected access arrangement on a different premises from the called access arrangement. The destination telephone number is specified by the customer at the time this feature is ordered. A change in the destination telephone number must be requested from the Company by service order.

6. Speed Calling 30'

This feature provides a PCS user the ability to place a call by dialing a code plus two digits, to any one of thirty telephone numbers preprogrammed by the customer on an individual access arrangement.

A12.16.3 Rates and Charges

The following rates and charges are for PCS service only and are in addition to the applicable service charges, monthly rates and nonrecurring charges for access arrangements and other services or equipment with which it is associated.

(DELETED)

A. PCS Service Terminations

1. Single access arrangement in PCS

	Residence	Business	USOC
(a) Residence, each	\$-	\$-	MVPSL
(b) Business, each	-	-	MBWSL
2. Multiple access arrangements in PC			
(a) Residence, first access arrangement	-	-	MVPM1
(b) Residence, each additional access arrangement	-	-	MVPM2
(c) Business, first access arrangement	-	-	MBWM1
(d) Business, each additional access arrangement	-	-	MBWM2

B. Monthly Rates - Basic Feature Groups

1. User Transfer/Conferencing

A12.23 Reserved for Future Use

A12.24 Reserved for Future Use

A12.25 BellSouth® Centrex Service

A12.25.1 General

- A. BellSouth® Centrex service provides an arrangement of switching equipment and station lines for intercommunicating among the station lines and for connection through the local and long distance message network to other subscribers on a dial basis. BellSouth® Centrex service is furnished from central office equipment located on Company premises and associated facilities arranged to provide the following basic service capabilities/features.
1. Exchange and long distance message network calls may be made to station lines by dialing the number associated with that station line or attendant position.
 2. Exchange and long distance message network calls may be made from station lines via direct outward dialing.
 3. Station-to-station intercommunication via two to ten-digit dialing between station lines of the subscriber's system.
 4. Outgoing long distance message calls dialed by a station line will be identified by the seven-digit station number. Only calls billed to the subscriber by the Company will be provided this identification.
 5. Touch-Tone service.
 6. Common recorded announcement interception of calls to unassigned station numbers.
- B. BellSouth® Centrex service will be furnished to subscribers requesting **one (1)** or more station lines served by the same central office equipment. (C)
- C. A subscriber's system may be comprised of the following components:
- Common Equipment
 - Station Lines
 - Network Access Registers
 - Optional Features
- D. Access to the local and long distance message networks will be provided via Network Access Registers (NARs) at the rates and charges indicated in Section A3. of this Tariff.

A12.25.2 Regulations

- A. BellSouth® Centrex service is furnished subject to the availability of facilities and features from central office equipment located in a central office building owned or leased by the Company. The service allows for normal station activity including incidental additions and deletions.
- B. Each system established must consist of a minimum of the Common Equipment, **one (1)** station line and one (1) Network Access Register. (C)
- C. A station line will be comprised of the Standard Features and the associated Station Link, which include access to the serving central office equipment.
- D. BellSouth® Centrex service will not be offered in a manner which provides for intercommunication only.
- E. Facilities may be used for direct connections between a subscriber's BellSouth® Centrex service and other systems primarily for communication between stations of the two systems. Rates and charges for these connection facilities are specified in either Section A13. of this Tariff or Section B3. of the Private Line Services Tariff. Charges for access to Private Facilities as specified in A12.25.8.E. of this Tariff are applicable. These facilities, connecting BellSouth® Centrex service, may be arranged to provide completion of incoming or outgoing exchange and long distance message network through the subscriber's BellSouth® Centrex service system to or from other systems, provided such connections to the exchange or long distance message network are only made one system at a time.
- F. Station lines may require customer-provided compatible terminal equipment.
- G. If the subscriber of BellSouth® Centrex service elects a Measured Rate service, usage charges as specified in Section A3. of this Tariff are applicable on calls to locations outside the subscriber's system in addition to rates and charges in this and other tariff sections for BellSouth® Centrex service and other associated services. Usage charges are not applicable on calls originated and terminated within the same BellSouth® Centrex service system, unless the system is equipped with Assumed Dial '9', in which case any appropriate usage charges will be applicable.

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.25 BellSouth® Centrex Service (Cont'd)

BY: Stephan D. Bell
SECRETARY OF THE COMMISSION

A12.25.2 Regulations (Cont'd)

- H. Suspension/Denial of Service - BellSouth® Centrex service may be suspended or denied at the subscriber's request or at the instance of the Company.
1. Full suspension of service at the request of the subscriber will be allowed on the Common Equipment, Station Links, and certain ISDN rate elements as indicated in A12.26.2 of this Tariff in a system at 50 percent of the rate regularly charged. Full suspension of a system requires that all Station Links and the ISDN elements indicated in A12.26.2 of this Tariff in a system be suspended. Standard Features and Optional Features outlined in Section A12. of this Tariff will be suspended at no recurring charge during the period of suspension unless otherwise noted. For BellSouth® Centrex service, there is no time limitation for suspension of service. Other rules and restrictions as outlined in Section A2. of this Tariff apply. Charges for restoration will be applicable as specified in Section A4. of this Tariff.
 2. Partial suspension of service at the request of the subscriber will be allowed on selected Station Link(s) and certain ISDN rate elements as indicated in A12.26.2 of this Tariff in a system at 50 percent of the rate regularly charged. Standard Features and Optional Features outlined in Section A12. of this Tariff associated with the Station Link(s) suspended will be suspended at no recurring charge during the period of suspension unless otherwise noted. For BellSouth® Centrex service, there is no time limitation for suspension of service. Other rules and restrictions as outlined in Section A2. of this Tariff apply. Charges for restoration will be applicable as specified in Section A4. of this Tariff.
 3. Denial at the instance of the Company will be allowed for non-payment of rates and charges for BellSouth® Centrex service and the associated services. Restoration charges will be applicable as specified in Section A4. of this Tariff.
- I. Directory Listings will be furnished subject to the rates and regulations specified in Section A6. of this Tariff.
- J. Service charges, as specified in Section A4. of this Tariff, apply to each station line in the same manner as for an individual business line and to all of the subscriber's systems unless otherwise indicated. A Secondary Service Charge from Section A4. of this Tariff applies per occasion for the addition or change of a feature or features provided as part of the Standard Features element.
- K. BellSouth® Centrex service installation charges are due on initial installation unless arrangements are made for Installment or Deferred Billing.
- L. For purposes of application of End User Common Line charges only, charges for BellSouth® Centrex service station lines will be as specified in BellSouth Telecommunications, Inc. Tariff F.C.C. No. 1, Section 4.
- M. Concessions will not apply to BellSouth® Centrex service except those allowed to Corporate Communication BellSouth® Centrex service accounts.
- N. Service charges will not apply for the provision of Calling Number Delivery Blocking.
- O. During collection or distribution of the subscriber's ACD-NMR and/or Switch-Computer Application Interface (SCAI) Link data, due to faults or defects in telephone equipment, data may be destroyed. The Company shall not be liable, directly or indirectly, for damages, except as outlined in A2.5.1 of this Tariff.
- P. Customer Premises Equipment (CPE) and software for use with ACD and/or Switch-Computer Application Interface (SCAI) Link is the responsibility of the user for provisioning. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of ACD Service render any facilities provided by the customer obsolete, or require modification or alteration of such equipment or system, or otherwise affect its use or performance.
- Q. A mixture of Flat Rate and Measured Rate Local Exchange Service will not be allowed.
- R. BellSouth® Centrex ISDN Service lines may be purchased out of A12.26 of this Tariff to be associated with BellSouth® Centrex service. Terms and conditions of BellSouth® Centrex service will apply to these BellSouth® Centrex ISDN service lines except as otherwise stated in A12.26 of this Tariff.
- BellSouth® Centrex ISDN service lines may subscribe to compatible Optional Features from this section of the Tariff.
- S. BellSouth® Centrex service is available to subscribers of Flat Rate service and Area Calling Service as outlined in Section A3. of this Tariff.
- T. Specific name and location data associated with BellSouth® Centrex service station lines, if requested, will be provided to BellSouth by the subscriber. The Company is not responsible for any issues that may arise from inaccurate data. In the event any claim is brought against the Company in connection with any errors or omissions in name and location data, the Company's liability shall be limited to one month's service for the BellSouth® Centrex service station line or station lines involved. (N)

ISSUED: June 28, 1999

BY: E.C. Roberts, Jr., President - KY
Louisville, Kentucky

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.25 BellSouth® Centrex Service (Cont'd)

A12.25.3 Unconditional Satisfaction Guarantee

- A. If the subscriber is not completely satisfied with BellSouth® Centrex service within ninety (90) days of the earliest effective billing date, all payments will be handled as indicated in this paragraph.
- The following charges will be refunded:
 - Nonrecurring and recurring charges (up to ninety days recurring billing) for rate elements as specified in this section for BellSouth® Centrex service.
 - Service charges from Section A4. of this Tariff.
 - The following charges will not be refunded:
 - End User Common Line charges as specified in BellSouth Telecommunications, Inc. Tariff F.C.C. No. 1, Section 4.
 - Usage Charges from Section A3. of this Tariff.
 - Customer-provided equipment acquired for use with BellSouth® Centrex service will not be included in this plan.
 - Other facilities, features, and services not located in this Tariff section will not be included in this plan.
 - This guarantee will not apply to transfers of service, moves, conversions, or renewal of Payment Plan and/or Rate Stability Plan.
 - BellSouth® Centrex service will be disconnected no later than ten (10) days after receipt of notification of dissatisfaction.
 - Subscribers requesting an extension of the ten (10) day disconnection interval to accommodate installation of a replacement product/service, will be billed the recurring rates applicable to the subscriber's system when installed for that period, not to exceed six (6) months.
 - Subscribers must retain continuous service beyond the ninety (90) days utilizing other BellSouth services.
 - Cancellation charges will not apply to BellSouth® Centrex service disconnected under this plan.

A12.25.4 Intercept of Calls

- A. Rerouting of calls that cannot be completed to the number originally dialed will be offered either standard Intercept or Automatic Number Referral.
- Intercept - Incoming calls from the exchange and long distance message networks to unassigned station numbers are intercepted by the same standard central office recorded announcement equipment used to intercept such calls for exchange services. The announcement provided states that the number called is not in service.
Intercommunicating calls to unassigned station numbers are intercepted by central office recorded announcement equipment which is common to all subscriber's BellSouth® Centrex service systems served out of the same office. The announcement states that the number is not in service and advises that the attendant or the directory number of the caller's system should be consulted.
 - Automatic Number Referral - Incoming calls to a telephone number that has been disconnected or changed may be routed to a mechanized announcement that tells the calling party that they have not reached the number they dialed, the reason the number is not in service and the new number to call, if available. Telephone numbers for station lines that are listed in the directory will be provided Automatic Number Referral (if desired) at no charge if disconnected or changed. Telephone numbers for station lines not listed in the directory may be provided Automatic Number Referral with charges from A12.25.12 of this Tariff applicable per telephone number referred.

A12.25.5 Conversions

- A. MultiServ® service, MultiServ® PLUS service, ESSX® Service, Digital ESSX® service and ESSX-1 service will be converted to BellSouth® Centrex service as follows. Conversions will be based on the Company's standard provisioning intervals. A12.25.5 of this Tariff only applies to the conversion of existing service and is not meant to apply to the provision of new service.
- Nonrecurring charges from this section will not apply.
 - Termination Liability/Cancellation Charges for original service will not apply.
 - Service charges from Section A4. of this Tariff will not apply.

SECTION 9 (1)

BY: Stephan D. Bell
SECRETARY OF THE COMMISSION

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.25 BellSouth® Centrex Service (Cont'd)

A12.25.5 Conversions (Cont'd)

- B. Deletions, changes, additions, and rearrangements of a subscriber's station lines and/or features will be performed subsequent to conversion to BellSouth® Centrex service as follows.
1. Changes, additions, or rearrangements for station lines and/or optional features:
 - a. Nonrecurring charges from this section will apply.
 - b. Service charges from Section A4. of this Tariff will apply.
 - C. Subscribers of BellSouth® Centrex service, upon the conversion of the central office facilities from one switch type to another, must convert to corresponding switch type features.
 1. Conversion will be within thirty (30) days of the central office conversion.
 2. Nonrecurring charges from this section will not apply.
 3. Cancellation charges for original service will not apply.
 4. If subscriber had a Rate Stability Plan in effect, it will continue uninterrupted.
 5. Service charges from Section A4. of this Tariff will not apply.
 6. Changes, additions, or rearrangements:
 - a. Nonrecurring charges from this section will apply.
 - b. Service charges from Section A4. of this Tariff will apply.
 - D. Conversions will not be allowed on suspended service.

A12.25.6 Payment Schedules

A. General

1. BellSouth® Centrex service is offered at the rates and charges indicated in this section.
2. The subscriber may choose from the Payment Plans and Rate Stability Plans as offered in this section.
3. The rates applicable for the Common Equipment and Station Links must be under the same Payment Plan.
4. The rates for the Common Equipment indicated in this section may be stabilized for 12, 24, 36, 48, or 60 months, as selected by the subscriber, with a Rate Stability Plan under the rules and regulations in this section.
5. Subscribers will have the BellSouth® Centrex service Common Equipment rates indicated in this section stabilized for their chosen Payment Plan and Rate Stability Plan period. Stabilized rates will not be subject to Company initiated increases for the duration of the stabilized period. Rates for the Station Links, Standard Features, Optional Features, and other rate elements in this section associated with BellSouth® Centrex service will not be increased for the Rate Stability Plan period associated with the Common Equipment. Decreases for any rate element will automatically flow through to all customers.
6. Except as indicated in A12.25.6.A.5. preceding, the Common Equipment Payment Plan recurring rate will be applicable for the length of the Rate Stability Plan period subject to the Cancellation Charge indicated in A12.25.6.C. following. Station Links, Standard Features, and Optional Features may be added or removed without the application of a Cancellation Charge.
7. The Company is allowed the option to provide BellSouth® Centrex service under a Contract Service Arrangement according to the rules and regulations in Section A5. of this Tariff in either of the following circumstances.
 - a. In the Company's judgment, the cost of providing BellSouth® Centrex service is significantly different from the cost developed to support the rates in this Tariff Section, or
 - b. The customer willingness to pay for an individual service, due to competitive alternatives, is above our cost to provide the customer's service but below the Tariff price.

(DELETED)

B. Expiration of Rate Stability Plan Period

1. BellSouth® Centrex service subscribers may upon the expiration of their contract choose either a. or b. following.
 - a. The subscriber may continue to receive BellSouth® Centrex service under their previously selected Payment Plan and Rate Stability Plan period for their Common Equipment. The currently effective tariff rates will apply for the Common Equipment, Standard Features, Optional Features, and other rate elements in this section.

BY: Stephan O. Bill
SECRETARY OF THE COMMISSION

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.25 BellSouth® Centrex Service (Cont'd)

A12.25.6 Payment Schedules (Cont'd)

B. Expiration of Rate Stability Plan Period (Cont'd)

1. BellSouth Centrex service subscribers may upon the expiration of their contract choose either a. or b. following. (Cont'd)
 - b. The subscriber may choose another Payment Plan and/or Rate Stability Plan period for their Common Equipment. The currently effective tariff rates will apply for the Common Equipment, Standard Features, Optional Features, and other rate elements in this section. If the new Rate Stability Plan period is for 24 months or greater, one month of the Common Equipment monthly rate for the Payment Plan and Rate Stability Plan period selected will be waived for each year of the new Rate Stability Plan period. This waiver does not apply to conversions of other services to BellSouth® Centrex service.

2. BellSouth® Centrex service subscribers may at any time during their selected Payment Plan and Rate Stability Plan period choose another Payment Plan with a Common Equipment monthly rate equal to or greater than their current Common Equipment rate and a Rate Stability Plan period equal to or greater than the amount of time remaining on their existing Rate Stability Plan period. The new rates will be the currently effective tariff rates. If the subscriber is within the last six months of his Rate Stability Plan Period, the waiver described in A12.25.6.B.1.b preceding is applicable.

C. Cancellation Charges

1. The following charges are incurred when a complete removal of a BellSouth® Centrex service system occurs prior to the expiration of the Rate Stability Plan.

The subscriber's Rate Stability Plan cancellation charge will be the total amount of the BellSouth® Centrex service Common Equipment monthly rate committed to by the subscriber for the remaining months of his Payment Plan and Rate Stability Plan period.
2. Cancellation charges may be applicable whether the disconnection occurs at the subscriber's request or at the instance of the Company.
3. Cancellation charges will not apply to Federal Income Tax-exempt organizations that use BellSouth® Centrex service on a temporary basis for a period not to exceed three months. Cancellation charges will not apply to subscribers who are (1) covered under the Unconditional Satisfaction Guarantee, (2) covered under a special promotion or waiver, or (3) a Federal, State, or local government agency or a subdivision thereof for which funding is not available.

D. Additions

A BellSouth® Centrex service subscriber may add station lines and/or any feature/capability to the existing system at any time during the period of service.

E. Disconnects

When a portion of a subscriber's BellSouth® Centrex service is disconnected, the expiration date of the Common Equipment Rate Stability Plan will not be affected.

F. Transfer of Contract

Service may be transferred to a new subscriber at the same location upon prior written concurrence by the new subscriber as specified in Section A2. of this Tariff.

G. Deferred Payment

Nonrecurring charges may be deferred as specified in Section A2. of this Tariff or extended under Installment Billing as specified in Section A4. of this Tariff.

H. Prepayment

Recurring charges may be prepaid as specified in Section A2. of this Tariff.

A12.25.7 Moves of Service

A. Moves of Service

1. A BellSouth® Centrex service subscriber may move a system within the same jurisdiction (the locations in the state within which the Company is authorized to operate). Service may be moved within the same central office or to another central office. All offices may not have the same feature capabilities.

2. For complete moves within the same central office:

- a. Cancellation charges will not apply.
- b. Rate Stability Plan in effect will continue uninterrupted.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

JUL 28 1999

PURSUANT TO 807 KAR 5:011,
SECTION 9 (1)

BY: Stephan O. Bue
SECRETARY OF THE COMMISSION

A12.25.8 Common Rates and Charges

A. General

1. Each BellSouth® Centrex service system consists of the Common Equipment, Station Lines, NAR(s), and any selected Optional Features. The Common Equipment and Station Links must be under the same Payment Plan.

2. A station line will be comprised of the Standard Features and the associated Station Link or the equivalent. The maximum number of features on a station line will be based on the limitations of the switching equipment serving the subscriber.

a. The rates and charges specified herein for station lines and bridged links are applicable to each station line location and bridged link location, respectively, to which a customer-provided instrument can be connected.

b. Rates for the station lines of BellSouth® Centrex service subscribers will be based on the following criteria:

- Station lines (Station Link and Standard Features) selected.

- The appropriate Optional Features requested.

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.25 BellSouth Centrex Service (Cont'd)

(T)

A12.25.8 Common Rates and Charges (Cont'd)

A. General (Cont'd)

2. A station line will be comprised of the Standard Features and the associated Station Link or the equivalent. (Cont'd)
 - c. Where station lines are extended to a premises served by a central office other than the central office providing the telephone number, the interoffice channel will be provided at the rates in A12.25.8.D. following. Rates for the BellSouth Centrex service station links will apply for the link from the distant central office to the subscriber's premises. (T)
 - d. Exchange Access
 - Exchange Access is provided by means of Network Access Registers. Usage charges may apply.
 - Presubscription of a Carrier of Preference is specified in Section 13. of the Interstate Access Services Tariff.
3. Installation Charges
 - a. Installation charges apply as specified, when a rate element is added or changed. These charges apply in addition to other applicable nonrecurring charges.
 - b. One or more rate elements may be provided at the same time and in such instances the specified installation charge will apply for each rate element provided.
4. Additional Directory Listings apply as specified in Section A6. of this Tariff.
5. Service Charges apply as specified in Section A4. of this Tariff to service establishment, moves and changes of BellSouth Centrex service. (T)
6. Credits and Surcharges

Credits and surcharges as described following will apply for all BellSouth Centrex service systems. A credit that is equivalent to the F.C.C. End User Common Line charge will be applied to each station line. A surcharge that is equivalent to the F.C.C. End User Common Line charge will be applied to each Network Access Register. (T)
7. Centrex PRI Conversions (N)

Customers may elect to convert existing PRI to Centrex PRI, and vice versa. This is considered an inside move and service rearrangement charges apply (as indicated in A42.3.4.G of this Tariff). Applicable charges for 5ESS switch type include Type 1 (as indicated in A42.3.4.G.1.a of this Tariff) and Premise Visit (as indicated in A42.3.4.G.3.a of this Tariff) per access line converted. Applicable charges for DMS-100 switch type include Type 1 (as indicated in A42.3.4.G.1.a of this Tariff), Type 2 (as indicated in A42.3.4.G.1.b of this Tariff) and Premise Visit (as indicated in A42.3.4.G.3 of this Tariff) per access line converted. (N)

B. Training Charges

1. Regulations
 - a. The Common Equipment charges in A12.25.9 of this Tariff include initial training as indicated following for training performed during normal business hours. Normal business hours are Monday through Friday, excluding legal holidays, from 8 a.m. to 5 p.m. All subsequent or additional training or training outside of normal business hours will be at charges indicated in A12.25.8.B.2. following.

A12.25 BellSouth Centrex Service (Cont'd)

(T)

A12.25.8 Common Rates and Charges (Cont'd)

C. Service Bridged Links (Extensions)

These rates and charges are applicable for Station Links bridged in the subscriber's serving wire center:

1. Bridged Links^{1,2}

		Payment Plans					USOC
		Plan 1	Plan 2	Plan 3	Plan 4	Plan 5	
(a)	Located on different premises from station link on non-continuous property, each	\$13.05	\$11.55	\$10.05	\$8.55	\$7.05	MIFNX
(b)	Located on different premises from station link on same continuous property, each	13.05	11.55	10.05	8.55	7.05	MIFCX

2. Extended Bridged Links^{1,2,3}

(a)	Extended to different premises, different serving wire center, each	13.05	11.55	10.05	8.55	7.05	MIFEX
-----	---	-------	-------	-------	------	------	-------

D. Interoffice Channels

1. Per Non-ISDN service channel

		Installation Charge	Monthly Rate	USOC
(a)	Each	\$240.00	\$30.00	M1GBC
(b)	Per mile	-	1.95	M1GBM
2. Bridging ⁴				
(a)	Per channel bridged	100.00	10.25	M1GEB

E. Miscellaneous Terminations

These charges apply in addition to the rates and charges for the associated facilities in other sections of this Tariff and other Company Tariffs. ***Terminations are offered where facilities permit. Availability may vary by central office switch type.***

1. Dedicated Private Facility Access

a. Trunk Side Termination

(1) Analog Switch⁵

(a)	Each termination	44.50	26.00	CENA6
-----	------------------	-------	-------	-------

(2) Digital Switch⁵

(a)	Each termination	44.50	26.00	CEND6
-----	------------------	-------	-------	-------

Note 1: A maximum of three Bridged Links or Extended Bridged Links will be allowed per station line depending on the availability of facilities.

Note 2: Some services and features are not compatible with the operation of Bridged Links or Extended Bridged Links. These services and features include, but are not limited to, BellSouth Centrex ISDN service Lines, Caller ID, Electronic Business Sets, and Message Waiting Lamp Indication.

Note 3: When the different premises are served from a different serving wire center, rates and charges in A12.25.8.D. of this Tariff also apply.

Note 4: Applies only to Extended Bridged Links.

Note 5: One installation charge applies when any number of terminations are installed at the same time, per occasion.

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.25 BellSouth® Centrex Service (Cont'd)

A12.25.11 Standard Features

A. General

1. The quantity of features offered as standard and optional will be dependent on the switch type.
2. The maximum number of features that can be provisioned on a station line is dependent on the serving central office.
3. All features are offered where facilities permit. This will be dependent on the serving central office.
4. Feature operation may vary based on the serving central office.
5. The operation of some features may make them incompatible with other features requested by the subscriber. Incompatible features will not be provisioned on a station line.
6. A list of the Standard Features is available for each switch type as indicated in A12.25.21 of this Tariff. As additional features become available in each switch type and are offered by the Company with this service as Standard Features, those additional features will be added to the Standard Features lists. As features are no longer made available by the Company with this service, those features will be deleted from the Standard Features lists.
7. Standard Features for BellSouth® Centrex ISDN service are listed in A12.26 of this Tariff.

B. Rates and Charges

1. Standard Features

(a) Per Station Line, Each¹

Installation Charge	Payment Plans	
	1-5 Monthly Rate	USOC CENAA
\$19.50	\$3.95	

A12.25.12 Optional Features

A. Rates and Charges

1. Authorization Codes

	Installation Charge	Monthly Rate	USOC	
(a) Per system (1AESS, DMS-100, 5ESS, EWSD®)	\$73.00	\$2.90	M2FFA	
(b) Per line, station specific <i>or</i> Per Code (DMS-100)	2.50	0.20	M2FLD	(C)
(c) Per line, each (5ESS)	2.50	-	M2FH5	
(d) EBS, Per DN, station specific (DMS-100)	2.50	0.20	M4FFN	
(e) Additions, deletions, and/or changes, per occasion (1AESS, DMS-100, 5ESS, EWSD®)	15.00	-	M2FCA	
2. Automatic Call Distribution (ACD), Basic ^{2,3} (DMS-100)				
(a) Per ACD group	475.00	143.00	M3UAD	
(b) Reconfiguration of ACD group	225.00	-	M3UBD	
3. Automatic Call Distribution (ACD) Activate/Deactivate Not Ready, non-EBS (DMS-100)				
(a) Per line	3.00	0.30	M5VAX	

Note 1: The installation charge does not apply for conversion of a station line from Centrex Control to non-Centrex Control.

Note 2: May include the functionality of some or all of the following: ACD Group, Primary Directory Number, Supplementary Directory Number(s), Abandon Call Clearing, Call Forcing, Overflow Enhancement, Distinctive Ringing, MultiStage Queue Status Display, Automatic Not Ready, MultiStage Queue Status/Display Queue Threshold, Make Line Busy, Call Park/Call Retrieve, Login/Logout and Called Name/Number Display.

Note 3: Rates and charges for Music/Announcement on Hold apply as appropriate.

(2) EBS, Per set				
(a) Per PDN (DMS-100)	5.00	1.00	M4E8P	

Note 1: Calling Number Delivery Blocking - Per Call is provided subject to availability of facilities where technically feasible. The Company assumes no liability for and will be held harmless from any incompatibility of the customer's CPE to perform satisfactorily with the network feature described herein. Calling Number Delivery Blocking does not prevent transmission of the calling party number on services such as E911 that utilize Automatic Number Identification (ANI) for delivery of the calling number.

Note 2: This feature allows a customer to temporarily prevent the transmission of that customer's Directory Number and/or Directory Name and thus control their availability to the called party. The transmission of the Directory Number and/or Directory Name can be temporarily prevented on an as needed basis by dialing a preassigned access code prior to making a call. This action must be repeated each time a call is made to prevent the transmission of the Directory Number and/or Directory Name.

Note 3: Applies per additional 6 port conference circuit preceding.

Note 4: Requires Conference Use Control in A12.25.12.A.13.a. preceding.

A. Rates and Charges (Cont'd)

34. BellSouth Centrex RingMaster (DMS-100, 5ESS, EWSD)

(T)

- a. BellSouth Centrex RingMaster service will enable a subscriber to have up to three telephone numbers associated with a single line.
- b. BellSouth Centrex RingMaster is not compatible with: Station Links in a different Wire Center; Station Links terminated on Electronic Business Sets; lines equipped with multi-line hunting arrangements, Integrated Services Digital Network (ISDN), and/or Automatic Call Distribution (ACD).
- c. BellSouth Centrex RingMaster is provided subject to the availability of facilities.
- d. All telephone numbers associated with a line equipped with BellSouth Centrex RingMaster must originate from the same Centrex customer group.
- e. When establishing BellSouth Centrex RingMaster service, Call Forwarding service subscribers must choose one of the following options:
 - (1) All telephone numbers associated with one line will be forwarded to a single number when Call Forwarding service is activated.
 - (2) The primary telephone number only will be forwarded when Call Forwarding service is activated. The additional BellSouth Centrex RingMaster service numbers will continue to ring and may be answered at the subscriber's premises.
 - (3) Both the primary and additional BellSouth Centrex RingMaster telephone numbers can be forwarded independent of each other to their own remote locations.
- f. Appropriate nonrecurring charges will apply when changing from one option to the other subsequent to the establishment of BellSouth Centrex RingMaster service.
- g. BellSouth Centrex RingMaster service can be suspended as specified in A2.3.16 of this Tariff. During the period of suspension, no recurring charge applies.

	Installation Charge	Monthly Rate	USOC	
h. Per Station Link ^{1,2,3}				
(1) BellSouth Centrex RingMaster				
(a) First additional telephone number with distinctive ringing, per line	\$-	\$5.00	CENRF	
(b) Second additional telephone number with distinctive ringing, per line	-	5.00	CENRG	
35. Remote Access Call Forwarding (requires Call Forwarding Variable)				(T)
(a) Per <i>non-Electronic Business Set</i> link (DMS-100, 5ESS, EWSD)	-	7.75	CENO2	(C)
(b) Per Electronic Business Set link (DMS-100 only)	-	7.75	CENO7	(N)
36. Secondary Calling Name Delivery (DMS-100, 1AESS, 5ESS, EWSD) ⁴				(T)
(a) Per station link	-	1.00	CENO4	

Note 1: Listings for BellSouth Centrex RingMaster service are subject to regulations specified in Section A6. for directory listings.

Note 2: Available on Analog Station Links only.

Note 3: Not available with foreign exchange service and foreign central office service.

Note 4: Each line requires an additional listing.

A12.25.14 Systems Communication Service (SCS)

A. General

1. Systems Communication Service (SCS) is an arrangement that provides abbreviated dialing between systems. SCS allows users in a BellSouth® Centrex service system to dial four or five digits to reach users in the other destinations included in the SCS arrangement. Destinations included in the SCS arrangement may be PBX, MultiServ® service, MultiServ® PLUS service, BellSouth® Centrex service or any other location which may be dialed directly (the subscriber may subscribe to BellSouth® Centrex service at the other locations, but it is not required). The calls can be local or toll.
2. The only function SCS offers to BellSouth® Centrex service subscribers is abbreviated dialing to the other selected locations.

B. Regulations

1. SCS will allow four or five-digit dialing on a system basis to the subscriber's distant number range. SCS will prefix any Access Code (if required), Home (HNPA) or Foreign Numbering Plan Area (FNPA) (if required), and NXX dialed by the subscriber before routing to the distant location.
2. The four or five-digit abbreviated dialing ranges cannot be duplicated at any other SCS location or destination.
3. BellSouth® Centrex service common equipment is required at each serving central office at which SCS is provided.
4. SCS will be offered only where facilities exist.
5. IntraLATA toll calls will be subject to the applicable rates for the authorized intraLATA toll service selected by the subscriber. InterLATA toll calls will be routed to the Interexchange Carrier (IC) to which the subscriber has presubscribed. Other usage charges will apply as appropriate.

Note 1: See A12.25.13.A.1. of this Tariff for availability of functions included in this rate element.

Note 2: Rates and charges for terminations in BellSouth® Centrex service (other than Tandem Switching Features SFGs) are located in A12.25.8 of this Tariff.

A12.25.15 Telephone Numbers and Facilities Reserved for Future Use

A. General

- A customer may reserve preassigned telephone numbers and facilities necessary to meet their specified growth requirements at specific locations on a mutually agreeable date. In the event the customer elects not to be provided with reserve telephone numbers, timely station line additions cannot be assured and facilities necessary for growth requirements will be provided only within normal engineering and construction intervals.
- Telephone numbers reserved for future use includes preassigned telephone numbers and the facilities required. Such telephone numbers and facilities will be removed from reserved status and assigned as active station lines as requested by the customer.
- The assignment of telephone numbers and the sequence of numbers assigned to a subscriber's system is made at the discretion of the Company.
- The service is furnished subject to the availability of facilities and telephone numbers.
- Calls to reserved (unassigned) telephone numbers will be routed to intercept common recorded announcement facilities as specified in A12.25.1.A. of this Tariff.
- Telephone numbers furnished herein retain their reserved status until assigned to a station line at which time the service assumes rates and charges applicable to a BellSouth Centrex service station line. (T)
- Reserved numbers not assigned to a station line will be billed at the following rates until removed from reserved status or billed as an active BellSouth Centrex service station line. (T)

B. Rates and Charges

A12.25.16 BellSouth Centrex Control

(T)

A. Description of Service

- BellSouth Centrex Control is a feature of BellSouth Centrex service which utilizes a computer-based operations system accessed via **an Internet connection or** a Company Secure Network **pending conversion to Internet access**. BellSouth Centrex Control allows end users to activate and/or deactivate selected features and/or change certain service options and feature configurations on designated BellSouth Centrex service station lines. These changes can be performed on a per line **basis** or a bulk change basis. Subscriber provided equipment is required for the operation of BellSouth Centrex Control. The BellSouth Centrex Control feature **is available** where central office switching systems **and** facilities permit. ISDN station lines will only be controllable in the DMS-100 and 5ESS switches where facilities permit. (C)
- For access to BellSouth Centrex Control, the subscriber will be required to provide appropriate equipment and **Internet access**. **Service established prior to June 30, 2006, using dedicated access lines will be converted to Internet access.** (C)

Note 1: Billing will be in increments of 100 numbers. Partial increments will be rounded up to the next 100.

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.25 BellSouth Centrex Service (Cont'd)

(T)

A12.25.16 BellSouth Centrex Control (Cont'd)

(T)

A. Description of Service (Cont'd)

3. BellSouth Centrex Control subscribers are subject to BellSouth Centrex service Rules and Regulations as stated in A12.25 of this Tariff. (T)
4. All features which are available via BellSouth Centrex service may not be available for BellSouth Centrex Control from all central offices. Non-controllable features may also be provided on a BellSouth Centrex Control station line. Rates and charges indicated for non-controllable Optional Features will be applicable. (T)
5. If the Company provisions the station lines initially, the Company will provision the basic service capabilities/features indicated in A12.25.1.A. of this Tariff and the initial customer specified set of the available controllable standard and optional features as indicated in A12.25.21, or A12.26 of this Tariff for ISDN lines, on all station lines. If the subscriber requests that the Company provide access to some controllable optional features subsequent to initial installation, the nonrecurring charge in A12.25.16.E.5.(b) following will be applicable. Depending on the subscriber's serving central office switch type, all features may not be controllable via BellSouth Centrex Control. (T)
6. If the subscriber wishes to provision the station line initially, the Company will first provide the station lines with the basic service capabilities/features indicated in A12.25.1.A. of this Tariff. (T)
7. BellSouth Centrex Control allows the subscriber to schedule changes for completion by the next business day or for a future business day. Additional priority changes may be requested and the changes completed the same day subject to switch access availability. (T)
8. BellSouth Centrex Control is furnished subject to the availability of facilities and features. (T)
9. If a subscriber requests BellSouth Centrex Control on any station lines in a system, all station lines in that system must be equipped for BellSouth Centrex Control. The Company reserves the right to make certain station lines inaccessible for BellSouth Centrex Control. (T)
10. Service established prior to June 30, 2006, pending conversion to Internet access requires use of a Security Card, see A12.25.16. (N)
BellSouth Centrex Control *utilizes Internet* access *and provides* security by requiring login and password identifiers. The subscriber must have one user *ID and password* for each *user* accessing the BellSouth Centrex Control Database. In addition, BellSouth Centrex Control ensures that the user can access only their portion of their database. The subscriber will be required to authenticate with a *user ID and password* before access is permitted. (C)
11. The subscriber will be provided one user *ID* and password in conjunction with the Service Establishment, Initial Setup. Additional *user IDs* will be needed if multiple *users* are *to* access the data base. Additional user *IDs* can be obtained *per* A12.25.16.E following. (C)
12. The subscriber will be provided one Data Base setup in conjunction with the Service Establishment, Initial Setup. (M)
13. At the subscriber's request, the Company may, on a temporary basis, agree to perform the following Activation/Deactivation/Change functions or TN swaps, as outlined in A12.25.16.E following, for new and existing BellSouth Centrex service subscribers. TN swaps can only be performed for like type station lines and facilities. (T)
 - Change station line features,
 - Delete features from a line or
 - Add new features to a line.
14. (*Obsoleted, see Section A112.*) (M)

A12.25 BellSouth Centrex Service (Cont'd)

A12.25.16 BellSouth Centrex Control (Cont'd)

A. Description of Service (Cont'd)

15. BellSouth Centrex Control provides the subscriber with the ability to print standard administrative reports. (T)
16. BellSouth Centrex Control subscribers may have capabilities beyond those indicated in this Tariff section that are not available to non-Centrex Control subscribers. (T)

B. Regulations

1. BellSouth Centrex Control is furnished subject to the availability of facilities and the ability of the software to control the requested feature. (T)
2. Limitations and use of BellSouth Centrex Control as stated in Section A2 of this Tariff will apply. (T)
3. Suspension of service at reduced rates as specified in A12.25.2 of this Tariff is not applicable if the customer utilizes BellSouth Centrex Control to deactivate station lines. Suspension of service by the Company will have reduced rates applicable as indicated in A12.25.2 of this Tariff. (T)
4. In no event shall the Company be liable for any losses or damages of any kind resulting from the unavailability of its equipment or facilities or for any act, omission, or failure of performance by the Company, or its employees, or agents, in line with this Tariff. (T)
5. To access the BellSouth Centrex Control database, the subscriber must use *Internet access or (for service established prior to June 30, 2006, awaiting conversion to Internet access)* a voice grade line or the equivalent. (C)
6. All BellSouth Centrex Control controllable lines in the 1AESS, 5ESS, and EWSD switches must be provisioned with a Caller ID Station Link. (T)
7. For station lines equipped with BellSouth Centrex Control, the subscriber can verify and/or display the assignment of features on a single line, range of station lines or all station lines to determine which station line or station lines have a particular feature or service option. (T)
8. BellSouth Centrex Control changes must be entered in conjunction with the following: (T)
 - Prior to Company designated schedules, or
 - As priority changes, or
 - As future dated transactions by the subscriber.
9. The subscriber will be responsible for installation, maintenance and testing of compatible customer-provided equipment (CPE). (T)
10. The Company does not assume responsibility for the compatibility or suitability of the subscriber's (CPE) equipment. (T)
11. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of BellSouth Centrex Control render any facilities provided by a customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance. (T)
12. The subscriber must provide the Company with a central point of contact for inquiries and/or trouble reports involving station features. (T)
13. The BellSouth Centrex Control subscriber is responsible for initiating a Service Order to correct any information pertaining to the Company's Published Directory Listings that changed as a result of a BellSouth Centrex Control TN swap. The appropriate Service Charges specified in Section A4 of this Tariff apply. (T)
14. **(DELETED)** (D)
15. The subscriber must notify BellSouth when an available telephone number used or intended for use as an Additional Directory Number (ADN) is assigned, moved, or deleted by the subscriber in order to assure the appropriate treatment of required information such as PIC, 911, and repair service data. The Company is not responsible for any issues that may arise from inaccurate data or lack of subscriber notification. In the event any claim is brought against the Company in connection with any errors or omissions, the Company's liability shall be limited to one month's service for the BellSouth Centrex service station line or station lines involved. PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

JUL 03 2000

PURSUANT TO 807 KAR 5.011,
SECTION 9 (1)
BY: Stephan D. Bue
SECRETARY OF THE COMMISSION

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

A12.26 BellSouth® Centrex ISDN Service

A12.26.1 General

- A. BellSouth® Centrex ISDN is an intraLATA group of offerings supported by the Integrated Services Digital Network (ISDN) architecture. BellSouth® Centrex ISDN supports simultaneous transmission of voice, data, and packet services on the same exchange access line Calling/Called Number Delivery, Calling Name Delivery in equipped 5ESS and EWSD® switches, Call Hold and Intercom are included with this service. BellSouth® Centrex ISDN is available only for use with BellSouth® Centrex service. BellSouth® Centrex ISDN provides access to the telephone network through a Basic Rate Digital Subscriber Line (DSL) Access Arrangement. Basic Rate Digital Subscriber Line (DSL) Access Arrangement will allow transmission on one or two 64 Kbps (B) channels and one 16 Kbps (D) channel at the service delivery point. (N)
- B. B channel circuit switched services offer up to 64 Kbps intra-office transmission of voice or data. This option permits the customer to utilize either circuit voice or data transmission paths on a per call selection basis. Transmission on the B channel will be circuit switched at 64 Kbps within the switch and/or equipped facilities between ISDN compatible central offices. ISDN interconnection to non-ISDN equipped central offices will be potentially subjected to analog transmission or sub-rated to 56 Kbps. This option includes one directory number (DN) per user access. (N)
- The ISDN Standard Features rate element is required for each B channel circuit switched user access. (N)
- C. Optional B channel packet services are defined as follows and may be ordered at an additional charge. (N)
1. B channel packet services are available in the following options. Each B channel packet terminal will be provided logical channels up to the technical capability of the central office. Each logical channel can carry an independent call with a throughput of up to 64 Kbps. These options include one data telephone number per user access. (N)
- a. Dedicated High Speed Packet Switched Data - This option permits the customer to establish packet data calls at speeds greater than 9.6 Kbps on the B channel. (N)
- b. On-Demand High Speed Packet Switched Data - This allows users to use a B channel for packet switching on demand. This feature may be used in either a multipoint or a point-to-point environment. A B channel is allocated based on user preference and on B channel availability. The user competes with all other users on the Basic Rate Interface for access to the B channel (5ESS/EWSD®). (N)
- D. D channels are equipped for Low Speed Packet Switched Data. This allows packet data (X.25) to be transmitted up to 9.6 Kbps on the D channel. Service includes logical channels up to the technical capability of the central office. Multiple packet calls can be active simultaneously by a user on a single D channel. Up to eight data terminals can be supported per Basic Rate Access. Service includes one data telephone number per user access. (N)

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

JUL 28 1999

PURSUANT TO 807 KAR 5:011,
SECTION 9 (1)

BY: Stephan D. Bell
SECRETARY OF THE COMMISSION

ISSUED: June 28, 1999
BY: E.C. Roberts, Jr., President - KY
Louisville, Kentucky

EFFECTIVE: July 28, 1999

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

A12.26 BellSouth® Centrex ISDN Service (Cont'd)

A12.26.1 General (Cont'd)

- E. The following parameters may be provided with Packet Switched B channel and D channel Services: (N)
- Each B channel packet terminal will be provided logical channels up to the technical capability of the serving central office. (N)
- Each logical channel can carry an independent call with throughput of up to 64 Kbps. (N)
- Each D channel packet terminal will be provided logical channels up to the technical capabilities of the serving central office. (N)
- Each logical channel can carry an independent call with throughput of up to 9.6 Kbps. Each logical channel may be established as one of the following types: (N)
- Two-Way Switched Virtual Circuit (default) (N)
 - One-Way Incoming Switched Virtual Circuit (N)
 - One-Way Outgoing Switched Virtual Circuit (N)
1. Flow Control Parameter Negotiation - This parameter negotiates on a per call basis the flow control parameters. This consists of automatic negotiation of the maximum packet size and window size for each direction of data transmission. (N)
 2. Throughput Class Negotiation - This parameter allows the calling station to request specific throughput classes in the call request packet for both directions of data transmission. (N)
 3. Recognized Private Operation Agency (RPOA) Selection - This parameter allows an ISDN user to specify an interLATA carrier (IC) for packet-switching on a per-call basis when the customers want it different from presubscribed IC. (N)
 4. Interexchange Packet - Preselect - This parameter allows an ISDN user to specify an interLATA carrier for packet switching at the time of subscription. (N)
 5. Fast Select Option - This parameter permits user data to be passed in the call set up packets of a virtual call. (N)
 6. Reverse Charging Option - This parameter permits the data communications equipment to transmit incoming calls requesting reverse charging to the user. The user must be subscribed to the destination line for X.25 Reverse Charge calls to be completed. If not, the call requesting reverse charging is refused. (N)
- F. BellSouth® Centrex ISDN Service will consist of the following components: (N)
- BellSouth® Centrex Service Common Equipment (N)
 - Station Lines (N)
 - Network Access Registers (N)
 - Optional Features (N)
- G. The BellSouth® Centrex ISDN service station line will be comprised of the following components: (N)
- Basic Rate Digital Subscriber Line (DSL) Access (N)
 - At least one channel, either B or D, must be activated. A minimum of one and maximum of eight User Profiles per Basic Rate Digital Subscriber Line (DSL) Access Arrangement (N)
 - Standard Features (N)
- H. The Basic Rate Digital Subscriber Line (DSL) Access will be counted as the station line in determining the application of the service Charges specified in Section A4. of this Tariff and the End User Charges as specified in the End User Common Access Service Section of BellSouth Telecommunications, Inc., FCC No.1, Section 4. (N)

A12.26.2 Regulations

- A. BellSouth® Centrex ISDN Service is available only in connection with BellSouth® Centrex Service. Rules and Regulations for BellSouth® Centrex Service in A12.25 will apply to BellSouth® Centrex ISDN service. (N)
- B. Customer Premises Equipment (CPE) that is compatible with the ISDN Interface is the responsibility of the user for provisioning. (N)
- C. The Company will be responsible for publishing and maintaining ISDN Interface Specifications. (N)

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

JUL 28 1999

SECTION 9 (1)

BY: Stephan Bue
SECRETARY OF THE COMMISSION

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

A12.26 BellSouth® Centrex ISDN Service (Cont'd)

A12.26.2 Regulations (Cont'd)

- D. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of Basic Rate Access render any facilities provided by the customer obsolete or require modification or alteration of such equipment or system, or otherwise affect its use or performance. (N)
- E. Suspension of service will be allowed under the rules and regulations in A12.25, except that suspension of service will not be applicable to the packet portion of the BellSouth® Centrex ISDN line. The Basic Rate Digital Subscriber Line (DSL) Access and User Profile per circuit switched voice/data of the suspended line will be at the reduced rate as specified in A12.25. The features associated with the suspended line will be suspended at no rate. (N)

A12.26.3 Rates and Charges

- A. The BellSouth® Centrex ISDN Service is associated with existing forms of exchange access which is BellSouth® Centrex Service. These rates and charges are applicable in addition to the rates and charges for associated services and features. (N)
- B. BellSouth® Centrex ISDN Service B and D channel access will be available in combinations restricted by the limits of the Company central office type. The subscriber will choose the most appropriate combination(s) and will be billed the required B and D channel access and the additional options as needed. (N)
- C. Rates and charges for BellSouth® Centrex ISDN Service Common Equipment are in addition to the charges in this section of the tariff. (N)

(T)

A12.26.3 Rates and Charges (Cont'd)

E. ISDN Basic Rate Digital Subscriber Line (DSL) Access Capability Charges (Cont'd)

3. Usage

a. Circuit Switching - Outside the Business Group

- (1) For fully Measured systems per minute usage rates, for all circuit switched services (voice and/or data) apply to the average local exchange use (rounded to the nearest second) and are defined in Section A3. of this Tariff. Usage rates are applicable for transmission outside of the subscriber's system or the subscriber's serving central office.

F. Standard Features

Customers are required to subscribe to BellSouth Centrex ISDN service before ordering the Standard Features rate element. Calling/Called Number Delivery, Calling Name Delivery in equipped SESS and EWSD® switches, Intercom and Call Hold are provided with the service. BellSouth Centrex ISDN Service Standard Features rate element will be required per user access for all B-channel access.

(T)

- (1) Rates as specified in A12.25.11 of this Tariff apply.

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS¹

A12.27 BellSouth® Centrex IP Service

A12.27.1 General

- A. BellSouth® Centrex IP is an arrangement that provides BellSouth® Centrex service to the subscriber as packetized streams via a broadband access facility. BellSouth® Centrex IP utilizes a broadband access facility to carry the packetized voice streams for many simultaneous calls.
- B. BellSouth® Centrex IP consists of the following components:
 - 1. BellSouth® Centrex Service Components (as described in A12.25 preceding)
 - 2. Network Access Registers (NARs) (as described in A3.8 of this Tariff)
 - 3. BellSouth® Centrex IP Arrangement
 - 4. BellSouth® Centrex IP Station Link
 - 5. Fast Packet Transport Service (for appropriate jurisdictions)
 - 6. Optional BellSouth® Centrex IP Features (as described in A12.27 following)

A12.27.2 Regulations

- A. BellSouth® Centrex IP is furnished subject to the availability of facilities.
- B. BellSouth® Centrex IP Station Line will be comprised of the Standard Features (as described in A12.27 following) and/or the BellSouth® Centrex ISDN Standard Features (as described in A12.27 following), in addition to the associated IP Station Link.
- C. BellSouth® Centrex IP is offered only to customers who also purchase BellSouth® Centrex Service (as described in A12.25 preceding). Rules and Regulations for BellSouth® Centrex Service set forth in A12.25 preceding apply to BellSouth® Centrex IP, unless otherwise specified. Unconditional Satisfaction Guarantee (as described in A12.25 preceding) does not apply to BellSouth® Centrex IP.
- D. BellSouth® Centrex IP is only offered for contracts of a minimum of 36 months or the length of the existing Centrex contract, whichever is greater.
- E. Limitations and conditions of use of BellSouth® Centrex IP as stated in Section A5. of this Tariff will apply.
- F. Suspension of Service is not allowed for BellSouth® Centrex IP.
- G. BellSouth® Centrex IP subscriber will be required to certify that its LAN/WAN complies with operational specifications as set forth by BellSouth (specified in BellSouth® Centrex IP operational document entitled "BellSouth IP Telephony Guidelines Version 1.1"), available to BellSouth® Centrex IP subscribers upon request. Subscriber agrees to periodic reviews of LAN/WAN specifications as deemed necessary by BellSouth to ensure ongoing operational compliance.
- H. In no event shall the Company be liable for any losses or damages of any kind resulting from the unavailability of its equipment or facilities or for any act, omission, or failure of performance by the Company, its employees, or its agents, in line with this Tariff.
- I. The subscriber will be responsible for installation, maintenance and testing of any subscriber-provided compatible Customer Premises Equipment (CPE) for BellSouth® Centrex IP. The Company assumes no responsibility for failure arising from subscriber installation or maintenance of said CPE.
- J. Moves of Service
 - 1. A BellSouth® Centrex IP subscriber may move an arrangement only within the same Central Office (C.O.).
 - 2. For complete moves within the same C.O.:
 - a. Cancellation charges will not apply.
 - b. Rate Stability Plan in effect will continue uninterrupted.
 - c. Nonrecurring charges from this section will not apply.
 - d. A change of telephone number is not required. If a change in telephone number is requested, all nonrecurring charges (except charges for station lines) apply as if for a new installation.
 - e. Service Charges from Section A4. of this Tariff will apply.
 - f. Changes, additions and/or rearrangements:
 - (1) Nonrecurring charges from this section will apply.
 - (2) Service charges from Section A4. of this Tariff will apply.

Note 1: Material previously on this page has been cancelled.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

JAN 12 2004

CONSISTENT TO 807 KAR 5-011
SECTION 5-11

EXECUTIVE DIRECTOR

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS¹

A12.27 BellSouth® Centrex IP Service (Cont'd)

A12.27.2 Regulations (Cont'd)

- K. Access to the Company's switching facilities will be attained via Fast Packet Transport service from BellSouth. (T)
- L. Access to the E911 Service is as follows: (N)
1. The provision of E911 Service and the placement of E911 calls in association with BellSouth® Centrex IP service is limited to those BellSouth® Centrex IP subscriber IP phone sets (CPE) installed and subsequent moves of such CPE within the same building (in which said IP phone sets were initially installed) as reported to the Company. (N)
 2. The Company is not liable for any E911 Service errors arising from a subscriber decision to use the Centrex IP phone set outside the building (in which said IP phone set was initially installed), as such action could result in misrouted E911 Service. (N)
 3. BellSouth® Centrex IP service subscribers that use some alternative access arrangement to remotely access their Centrex IP service while at home (i.e., "Telecommuters") must use their regular home phone for E911 service. (N)
 4. BellSouth® Centrex IP service subscribers that use some other access arrangement to remotely access their Centrex IP service while traveling (e.g., frequently traveling "Road Warriors" that use private or remote internet access arrangements to connect to their Centrex IP service from their hotel/motel rooms) should use the standard phone line provided by the hotel/motel (or some other telephony service) for placing E911 calls. (N)
 5. If a BellSouth® Centrex IP subscriber IP phone set is moved to another location within the same building (in which said IP phone was initially installed), it is the subscriber's responsibility to immediately inform BellSouth of the specific place of relocation within the building. Failure to do so could result in misrouted E911 service. (N)
- M. Service charges apply as specified in Section A4 of this Tariff to service establishment, moves, and changes of BellSouth® Centrex IP service. (N)
- N. BellSouth® Centrex IP service is only available with 5ESS host and DMS-100 host switch types. (N)
- O. BellSouth® Centrex IP Station Links will be offered flat rate only. (N)

A12.27.3 Payment Schedules

- A. BellSouth® Centrex IP will be offered at the rates and charges set forth in A12.27 following. (N)
- B. The BellSouth® Centrex IP rates will not be increased for the duration of the subscriber's BellSouth® Centrex Rate Stability Plan. Decreases will be automatically reflected on the subscriber's bill. (N)
- C. BellSouth® Centrex IP subscribers must have, at minimum, their BellSouth® Centrex Service Common Equipment under Payment Plan 3, Payment Plan 4, or Payment Plan 5. Subscribers on either Payment Plan 1 or Payment Plan 2 seeking to add Centrex IP stations must recast their agreements to a plan of Payment Plan 3 or greater. (N)

A12.27.4 Cancellation

- A. The following charges are incurred when removal of BellSouth® Centrex IP System occurs prior to the expiration of the subscriber's BellSouth® Centrex and/or BellSouth® Centrex IP Service Rate Stability Plan. (N)
1. The subscriber's BellSouth® Centrex IP Rate Stability Plan cancellation charge will be calculated by multiplying the Centrex IP System monthly recurring charge times the number of months remaining on the subscriber's BellSouth® Centrex and/or BellSouth® Centrex IP Service Rate Stability Plan. (N)

Note 1: Calling Number Delivery Blocking - Per Call is provided subject to availability of facilities where technically feasible. The Company assumes no liability for and will be held harmless from any incompatibility of the customer's CPE to perform satisfactorily with the network feature described herein. Calling Number Delivery Blocking does not prevent transmission of the calling party number on services such as E911 that utilize Automatic Number Identification (ANI) for delivery of the calling number. (N)

Note 2: This feature allows a customer to temporarily prevent the transmission of that customer's Directory Number and/or Directory Name and thus control their availability to the called party. The transmission of the Directory Number and/or Directory Name can be temporarily prevented on an as needed basis by dialing a preassigned access code prior to making a call. This action must be repeated each time a call is made to prevent the transmission of the Directory Number and/or Directory Name. (N)

Note 3: Applies per additional 6 port conference circuit preceding. (N)

Note 4: Requires Conference Use Control in A12.27 preceding. (N)

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.28 BellSouth Centrex Service Package

(N)

A12.28.1 General

(N)

- A. BellSouth Centrex Service Package is an arrangement providing BellSouth Centrex service to Subscribers as part of a packaged offering with a Customized Common Block and a one-to-one Station Link-to-Network Access Register ratio. (N)
- B. BellSouth Centrex Service Package may be comprised of the following components: (N)
 - 1. Common Equipment (Payment Plan 3) (as described in A12.25 preceding) (N)
 - 2. Station Links (as described in A12.25 preceding) (N)
 - 3. Network Access Registers (NARs) (as described in A3.8 of this Tariff) (N)
 - 4. Standard Features (as described in A12.25 preceding) (N)

A12.28.2 Regulations

(N)

- A. BellSouth Centrex Service Package is furnished subject to the availability of facilities. (N)
- B. Each system established must consist of a minimum of the Common Equipment (Payment Plan 3), six (6) Station Links with Standard Features, and six (6) Network Access Registers. (N)
- C. Rules and Regulations for BellSouth Centrex Service set forth in A12.25 preceding apply to BellSouth Centrex Service Package, unless otherwise specified. (N)
- D. BellSouth Centrex Service Package is only offered for term agreements of twenty-four (24) or thirty-six (36) months. (N)
- E. The Subscriber will be billed at the monthly rates for the initial Station Link commitment throughout the term of the BellSouth Centrex Service Package agreement, even in the event that the Subscriber's Station Link number falls below the initial Station Link commitment. (N)
- F. In no event shall the Company be liable for any losses or damages of any kind resulting from the unavailability of its equipment or facilities or for any act, omission, or failure of performance by the Company, its employees, or its agents, in line with this Tariff. (N)
- G. BellSouth Centrex Service Package is only available with Customized Common Block. (N)
- H. BellSouth Centrex Service Package is based on a one-to-one Station Link-to-Network Access Register ratio. (N)
- I. Centrex Control will not be offered as part of BellSouth Centrex Service Package. (N)
- J. Electronic Business Sets, BellSouth Centrex ISDN, and Station Links from a Different Serving Wire Center will not be offered as part of the BellSouth Centrex Service Package. (N)
- K. BellSouth Centrex Service optional features can be purchased for BellSouth Centrex Service Package at rates specified in A12.25 preceding. (N)
- L. BellSouth Centrex Service Package is available with the following switch types: 1AESS, 5ESS, DMS-100, EWSD[®], DCO. (N)
- M. BellSouth Centrex Service Package is available flat rate only. (N)
- N. Service charges apply as specified in Section A4 of this Tariff. (N)
- O. BellSouth Centrex Service Package may be converted to BellSouth Centrex service as follows: (N)
 - 1. Nonrecurring charges from this section will not apply. (N)
 - 2. Termination Liability/Cancellation Charges for original service will not apply. (N)
 - 3. Service charges from Section A4. of this Tariff will not apply. (N)
 - 4. Changes, additions or rearrangements for new lines and/or optional features: (N)
 - a. Nonrecurring charges from this sub-section will apply. (N)
 - b. Service charges from Section A4. of this Tariff will apply. (N)

A12.28 BellSouth Centrex Service Package

A12.28.2 Regulations (Cont'd)

- P.** Suspension/Denial of Service – BellSouth Centrex Service Package may be suspended or denied as follows:
1. Suspension of service at the request of the Subscriber will be allowed on the BellSouth Centrex Service Package system components described in A12.28.1.B at fifty percent (50%) of the rate regularly charged. There is no time limitation for suspension of service. Other rules and restrictions as outlined in Section A2. of this Tariff apply.
- Q.** Special Assemblies will not be allowed for BellSouth Centrex Service Package. (C)
- R.** Unconditional Satisfaction Guarantee - if the Subscriber is not completely satisfied with BellSouth Centrex Service Package within ninety (90) days of the earliest effective billing date, all payments will be handled as indicated in this paragraph.
1. The following charges will be refunded:
 - a. Nonrecurring and recurring charges (up to ninety (90) days recurring billing) for rate elements as specified in this section for BellSouth Centrex Package service.
 - b. Services from Section A4. of this Tariff.
 2. The following charges will not be refunded:
 - a. End User Common Line charges as specified in BellSouth Telecommunications, Inc. Tariff F.C.C. No. 1, Section 4.
 - b. Usage Charges from Section A3. of this Tariff.
 3. Customer-provided equipment acquired for use with BellSouth Centrex Service Package will not be included in this plan.
 4. Other facilities, features, and services not located in this Tariff section will not be included in this plan.
 5. This guarantee will not apply to transfers of service, moves, conversions, or renewal of Payment Plan.
 6. BellSouth Centrex Service Package will be disconnected no later than ten (10) days after receipt of notification of dissatisfaction.
 7. Subscribers requesting an extension of the ten (10) day disconnection interval to accommodate installation of a replacement product/service, will be billed the recurring rates applicable to the Subscriber's system when installed for that period, not to exceed six (6) months.
 8. Subscribers must retain continuous service beyond the ninety (90) days utilizing other BellSouth services.
 9. Cancellation charges will not apply to BellSouth Centrex Service Package disconnected under this plan.
